

Datasheet Protective Wire Tester P 1800D

Safety Tester

Protective Wire Tester P 1800D - Technical Data

Dimensions and weights

Width x depth x height approx. 380 / 360 / 150 mm (14" / 3 HE)

Connection data

Wide Range 90-250 V / 50-60 Hz

Protective conductor test

Test current	programmable from10 up to 30 A AC
Limit values	free programmable von 0 - 1100 m0hm

Read input step

Inputs 1 – 8 input voltage: 24V DC

Set output step

Outputs 1 - 8 output voltage: +24V

Protective Wire Tester P 1800D - Features

- housing with integrated TFT colour display
- 2 USB interface for keyboard / bar code scanner (1 at the front)
- Ethernet interface for firmware update
- Serial RS232 Interface

HIGHTECH + SERVICE + DEVELOPMENT

We from SPS electronic are more than just the technophile experts for electrical test devices from Germany. For due to our experience, conviction and method of operation we have managed to develop a unique product and service level. In short, you have more of a benefit from cooperating with SPS electronic: more know-how, more advice, more competence. Even more than you would expect from the German – and that in each area.
